**DETAILED ACTION**

***Claim Rejections - 35 USC § 112***

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claim 14 is rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. The claimed matter that is not enabling is a tape having high water permeability without a vapor escape hole. If a material is permeable than inherently it has holes to allow for liquids or gases to pass. The claimed limitation of a tap having water permeability without a vapor escape hole is incompatible.

Claim 14 is rejected under 35 U.S.C. 101 because the claimed invention is not supported by either a specific asserted utility or a well-established utility.

If the tape has no hole capable of vapor escape, than it is incapable of water permeability and therefore the claimed invention is inoperable.

Claim 14 also rejected under 35 U.S.C. 112, first paragraph. Specifically, since the claimed invention is not supported by either a specific asserted utility or a well established utility for the reasons set forth above, one skilled in the art clearly would not know how to use the claimed invention.

***Response to Amendment***

The amendment filed July 7, 2002 is objected to under 35 U.S.C. 132 because it introduces new matter into the disclosure. 35 U.S.C. 132 states that no amendment shall introduce new matter into the disclosure of the invention. The added material which is not supported by the original disclosure is as follows: "tape has no vapor escape holes" in claim 14.

Applicant is required to cancel the new matter in the reply to this Office Action.

***Response to Arguments***

Applicant's arguments filed July 7, 2002 have been fully considered but they are not persuasive. Applicant's specification on page 3, lines 29-30 and page 4, lines 1-2 explicitly indicates that the "tape has at least one hole...functions as a vapor escape hole." As such, a tape without a vapor escape hole is incapable of achieving claimed water permeability.

***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. THE REPLY FILED 07 July 2002 FAILS TO PLACE THIS APPLICATION IN CONDITION FOR ALLOWANCE. Therefore, further action by the applicant is required to avoid abandonment of this application. A proper reply to a final rejection under 37 CFR 1.113 may only be either: (1) a timely filed amendment which places the application in condition for allowance; (2) a timely filed Notice of Appeal (with appeal fee); or (3) a timely filed Request for Continued Examination (RCE) in compliance with 37 CFR 1.114.
